assistants be employed by a physician and directed the Board to promulgate rules through its Integrative and Complementary Medicine Committee (AICM@) that it deemed necessary to regulate the certification and practice of acu detox in this state. With the input of the Integrative and Complementary Medicine Advisory Committee and other interested parties, a draft was prepared and distributed at the Board's December 2007 meeting for initial consideration and discussion. At that time the Committee also voted to recommend that the Board undertake the following additional rule-making efforts: (i) to adopt staff's recommendations to include a number of causes that may give rise to the denial, suspension, or revocation of licensure; (ii) to delete Chapter 111 of its rules so that the Board may continue to handle disciplinary proceedings relative to CLP applicants/licensees as it does for all other allied health care providers; and (iii) to eliminate certification examinations CLS-G/CLS-T offered by two organizations which, in the view of the Committee, do not provide the minimum acceptable education, clinical, employment or experience requirements requisite to licensure. The Board requested that Dr. Gage-White seek clarification on item (iii) for the military personnel, approved the Committee's recommendations and decided to provide Notice of Intent to adopt the rules in the Louisiana Register. The modification suggested by Dr. Gage-White was considered and approved by the Committee at its March 2008 meeting.

of the ankle, muscles, or tendons of the lower leg governing the functions of the foot and ankle by a podiatrist who has completed advanced training determined to be sufficient by the Board at a program accredited by nationally recognized associations acceptable to the Board.® Implementation of the increase scope of practice must be preceded by rules promulgated by the Board that are predicated on the education or level of training, or both, of an applicant. With the input of the Podiatry Advisory Committee and the Louisiana Orthopedic Association, a draft of such rules was presented for consideration and discussion. The Board reviewed a draft of the proposed rule amendments. Following review and discussions, several changes were suggested, and a subsequent draft will be presented to the Board for consideration. **Physicians and Surgeons – Telemedicine** – Due to the lack of sufficient number of psychiatrists and facilities available to provide mental health services to the citizens of this state, combined with advancement in technology in recent years, the Board will consider the issuance of permits that would allow board certified psychiatrists to conduct examinations by telemedicine (in lieu of in person) for the purpose of treating mental health and addiction disorders in facilities approved by the Department of Health and Hospitals (DHH) for this purpose. A draft of the proposed rules was considered by the Board at its April 2008 meeting, and a revised draft was considered at its June 2008. The Board directed staff to develop rules that would address various physician concerns bearing on the issue since implementation of the law. The Board reviewed a draft of the proposed rules as well as a copy of the rules adopted by the State Board of Examiners of Medical Psychologists relating to this matter.
